

YCCE IT EXAMINATION SYSTEM (GUIDE BOOK)

STEP 01: Open the website using the URL provided by your instructor (e.g., ip:8080/ycce).

- Make sure your device is connected to the college LAN or Wi-Fi network before accessing it.

STEP 02: Enter your login credentials (as shown below).

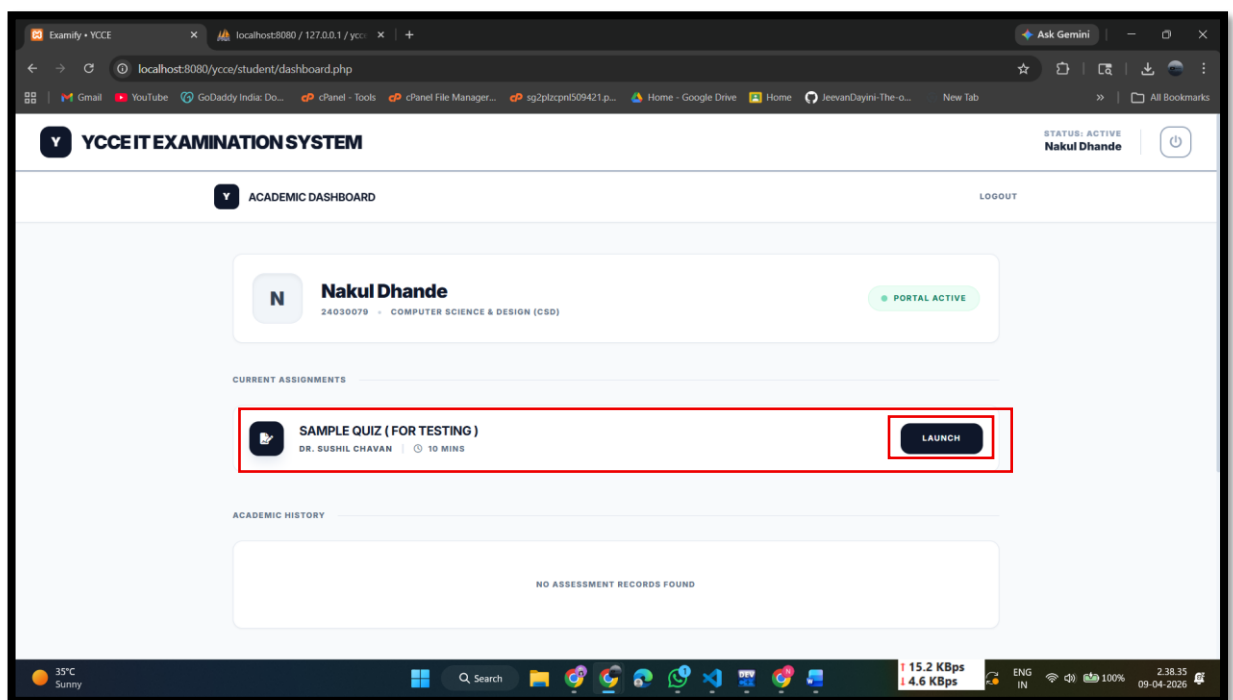

- Enter your college email Id.
- Enter your password in the “Access Key” field.
(Both shared via email)
- Click on “Verify & Enter” to proceed to the Student Dashboard

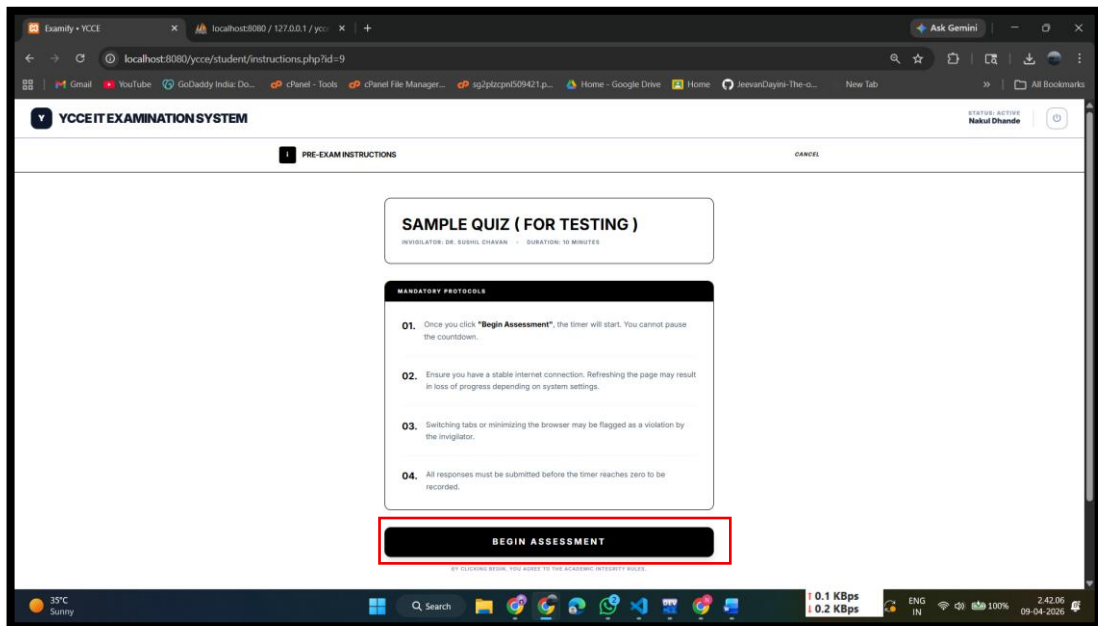

STEP 03: Student Dashboard.

Students can now access their dashboard, which includes the following sections:

1. **Current Assignments:** Displays available tests.
2. **Academic History:** Shows previously attempted test history.
3. **Other Ineligible Assessments:** Lists tests/assessments for which you are not eligible. If you find any discrepancy, report it immediately to the coordinators.
4. Click on the “**Launch**” button to navigate to the instructions page and start the desired test.

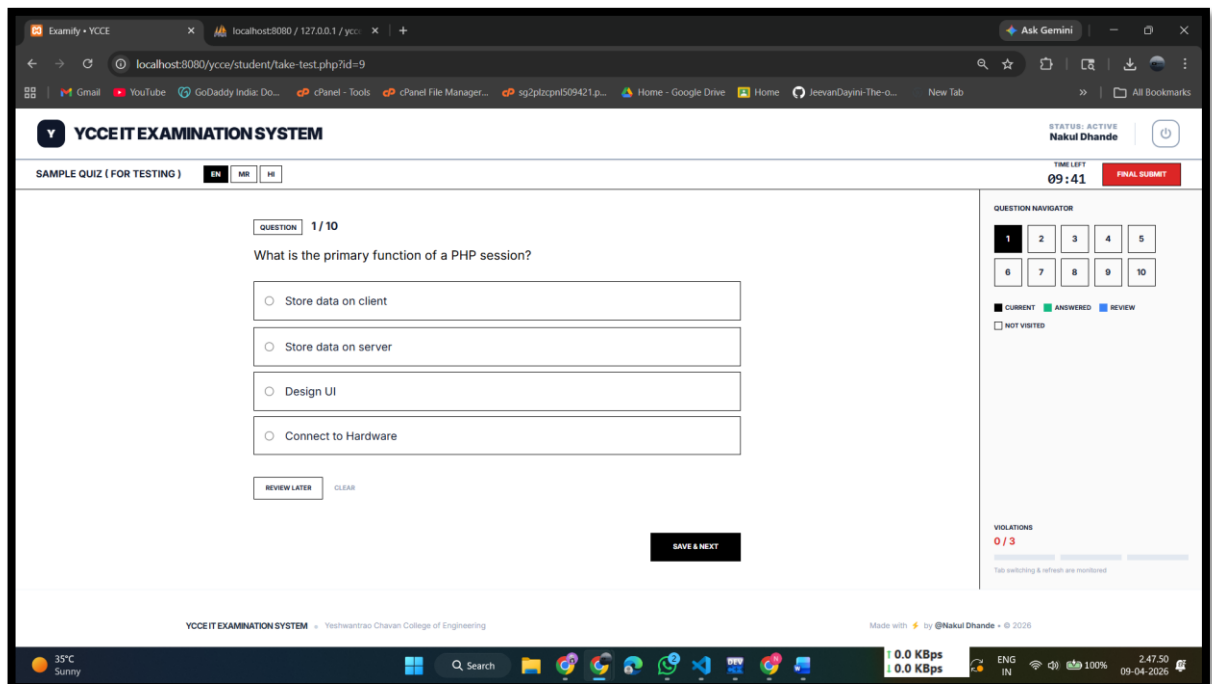

STEP 04: Exam Instructions:

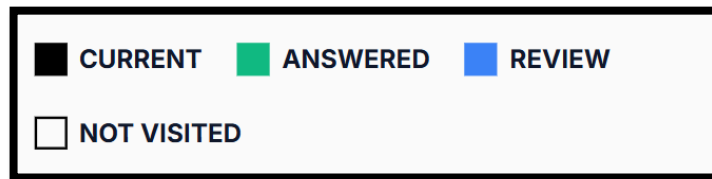

- Now, Before Proceeding Read the Instructions Carefully.
- After reading Click on “**Begin Assessment**” to start the test.

STEP 05: Examination Panel:

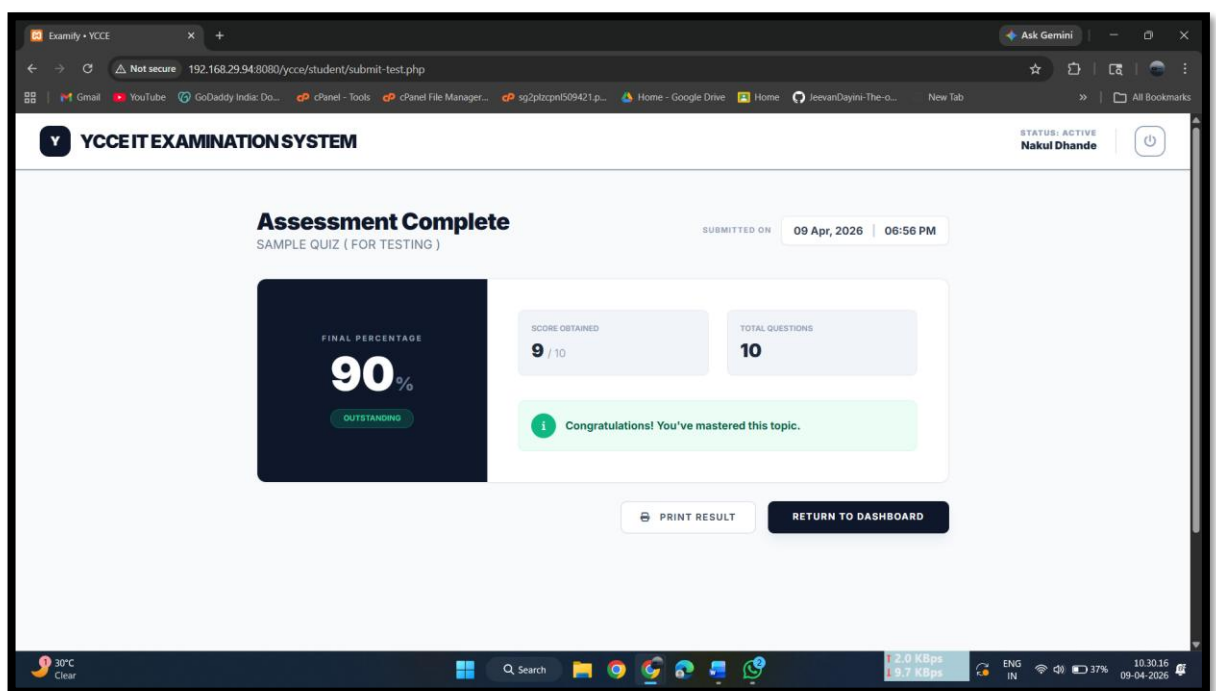

- Each question shows multiple-choice options with navigation buttons below.

- Use **SAVE & NEXT** to confirm your answer and move forward.
- Use **REVIEW LATER** to mark a question for revisiting before submission.

- The **Question Navigator** highlights current and flagged questions for quick access.
- Keep an eye on the countdown timer; the test auto-submits when time ends.

STEP 06: Result Summary Window:

Result Summary Window → Shows marks, percentage, and performance status.

(If you accidentally miss this page or press back, don't worry — your result can always be viewed later from the Academic History section in the dashboard.)

Important Instructions for Students:

- Do not refresh or close the browser during the test.
- The timer cannot be paused.
- Once the test is submitted, answers cannot be changed.

Any refresh, tab switch, or moving outside the active test window will be considered a violation. You are allowed up to 3 violations; **after the third violation, the test will be automatically submitted.**
