Education

Yeshwantrao Chavan College of Engineering, YCCE — Nagpur, India
B.Tech in Computer Science and Design (CSD), CGPA: 9.12 — *2024 - 2027*

Indian Institute of Information Technology, IIITN — Nagpur, India
Student Exchange Program (6th Semester) — *Jan 2026 - May 2026*

Priyadarshini Polytechnic, PPN — Nagpur, India
Diploma in Information Technology, Aggregate: 87.50% — *2021 - 2024*

Experience

Developer Trainee (Android Developer) — June 2025 – July 2025
Elite Back Office Solutions Pvt. Ltd. — *Nagpur, India*

- Recreated UI/UX to closely match the original Phantom Wallet application.

Web Based Application development using java Training based internship — June 2023 – July 2023
IT-NetworkZ Infosystems Pvt. Ltd. (Kavin's Group) — *Nagpur, India*

- Created a Java-based web application with JDBC/ODBC, SQL and Apache Tomcat, implementing database connectivity, backend logic, HTML and getter/setter methods for data handling.

Projects

JEEVANDAYINI - Android, Firebase, ZXing — Dec 2024 – Apr 2026

- Engineered a Android-based healthcare application featuring NFC-enabled health cards, patient information management and appointment scheduling, integrating Firebase Authentication and Realtime Database for secure access and real-time data management.

PIEZOELECTRIC BASED ELECTRICITY GENERATION SYSTEM — Sep 2025 – Present

- Designed and developed a piezoelectric energy harvesting system that converts mechanical vibrations and applied pressure into electrical energy, exploring its application in powering low-energy electronic devices.

WASTE SEGREGATION CLASSIFICATION - Python, TensorFlow, MobileNetV2 — Mar 2026 – Present

- Built a deep learning-based waste classification system using TensorFlow, MobileNetV2 and Transfer Learning, achieving 99.27% accuracy across four categories: Metal/E-Waste, Organic, Inorganic and Paper.

Technical Skills

Languages: Java, C, C++, Android Java, Android XML.
CS Core: OOPS, Computer Networks, OS, DBMS, ML, Neural Network and Deep Learning, Design Patterns.
Technologies/Frameworks: Android Development, Firebase, cPanel, PhpMyAdmin.
Software & Tools: Git, GitHub, ESP32, Android Studio, Arduino IDE & IoT.

Certifications & Achievements

- 2nd Position in PPT Presentation organized by Youth Indian at Chitnavis Centre, Regional Level (Aug 2026).
- 2nd Position at BIT Chandrapur Hackathon organized by Tadoba and Government of Maharashtra (Oct 2025).
- 3rd Position at IIT Hyderabad E-Summit Poster Presentation (Jan 2026).
- Android App Development Specialization – Vanderbilt University - Coursera (Nov 2025).
- YCAP Technical Top Performer (Apr 2025).
- 1st Position in Academics during 2nd year in CSD Department.
- 1st Prize in Academics for 1st, 2nd and 3rd year of Diploma.
- MSBTE - Represented college in State-Level Project Competition - Nagpur Region (Mar 2024).
- MSBTE - Participated in State-Level Paper Presentation (Jan 2024).
